

Cambridge Montessori Preschool, is poised to create a learning environment for the tiny tots, which is based on internationally renowned Montessori philosophy propounded by Dr. Maria Montessori. The school develops an excellent Montessori curriculum sourced and researched from across the globe and delivered with the help of operational centers in Asia. Cambridge Montessori Pre School focus on the pivotal early grade for children from 12 months to 6 years.

The school provides the academically challenging curriculum with flexibility to meet the needs of individual children in these critical early years. The focus on teaching children in unique manner with the help of Montessori material establish strong foundation in reading, composition, mathematical skills and encourages individual creative expression and making Them independent learners at the early age of 3.5 years.

It helps them instill independent learning, creative thinking, and excellent communication skills and further arm them to succeed in tomorrow's world. Cognitive approach in

a progressive way with the help of Montessori teaching materials thus enhancing gross motor skills, sensory development, eye hand coordination and adaptation to the changing environment in their sensitive period of conscious as well as sub conscious phase of their absorbent mind.

At Cambridge Montessori Pre School, children have the freedom to choose their own activities. Children become enthusiastic learners and develop self-discipline. The environment of Cambridge Montessori Preschool is a nurturing place for children. It is designed to meet the child's need for self-construction. The environment is responsive to the ever changing needs of the growing child. They become expressive through creativity & imagination. The child's self-esteem is central to our education.

At Cambridge Montessori Pre School we believe in providing an all-round learning environment which will help the child to develop physically, cognitively, socially and emotionally.

Relationship | Curriculum | Teaching | Assessments | Health | Teachers | Families | Community Relationship | Physical Environment

“The most important period of life is not the age of university studies, but the first one, the period from birth to the age of six.” **Dr. MARIA MONTESSORI**

The Montessori curriculum is designed to ensure development at child's own pace. The child is given opportunity to become independent. It also makes them responsible. It revolves around overall development of child by using various methods/presentation in the field of Elements of practical life, sensorial, mathematics, language and culture. With the help of Montessori approach, children are encouraged to collaborate to help each other. They set own learning pace to internalize information and use as per the environment.

Parent's Feedback

The school has given us an opportunity where we can get to know the kids/ child behavior .Our child is rebating & understanding the concepts & basic. We are very happy with the school. I thank each teacher & mentor for making my child a better citizen.
-Pradeep M. K (Delhi)

The school is good. It helps us to know more about our child. I am very thank ful about you all totally we are happy with Cambridge Montessori. Thank You.
-Ms. Patil (Mumbai)

Her Academics has improved a lot from her joining of school & until now. Thank you staff of cambridge montessori for overall development of my kid. -Angela (Coimbatore)

“Satisfied” this one word is enough for everything Teachers support to children and efforts to understand is excellent. -Khushboo (Ahmedabad)

Progression is awesome ! Happy with his overall development. -Sartaj (Punjab)
